Once more FRANCARE has proven its capability to adapt to all circumstances. We acted fast to develop solutions ready to face the global health crisis, providing our customers with immediate solutions to meet their needs of medical supplies, equipment, consumables and maintenance of their sanitary structures.

During these critical times, FRANCARE was at the side of health structures of large industrial groups, specially during periods of lockdown:

- Advice in the selection of suitable equipment and devices, following regularly the guidelines for the new coronavirus 2019-nCov published by the WHO
 - Purchase of stock directly from factories
 - Automated Immunoassay analysers
 - PCR systems
 - Hospital and emergency ventilation systems
 - O2 concentrators
 - Thermal camera and non-touch thermometers
 - Isolation and transport solution
 - Airway devices
 - Infusion pumps
 - Pulse oximeters
 - Flocked, dry, and liquid media swabs
 - Rapid tests (saliva, antigenic, serologic)
 - FFP2 and surgical masks
- ⇒ Express delivery of medical devices and furniture
- ⇒ Adjusted transport solutions : dedicated cargo aircraft charter, express shipments
- ⇒ Our local teams offered ad hoc solutions to support and maintain the equipment. Video-conferencing training was also offered.

**Multiparametric immunoassay system, for batch or single testing:
up to 90 tests / hour, Biomerieux**

**Infusion pump, infusion rate range : from 0,1 to 1500 ml/h.
Volume to be infused : from 1 to 9999 ml.**

Real-time PCR thermal Cycler : 40 cycles in 45-60 min

**Ventilator for Emergency - Transportation - Inter-hospital transportation.
Post-operative recovery**

**Safe and secure patient isolation
and transport of an infected or
contaminated patient**

Oxygen concentrator
